As experienced and Lord gifted management consultants we have introduced our models and guided many past rage and disappointments from “Trust (+) Building Failures” © to achieving resolution for tough situations. Your teams like other communities will experience paths for healing and reconciliation which build and rebuild “Trusted (+) Relations”© and “Trust Builders Believability”©.

We caution over reliance on “Transparency” as believe it can be a flawed strategy. Understanding the role the “Two Types of Trust” © and its “Trust (+) Building Processes” © is a more productive strategy.

We introduce our life’s work and courtesy PDF’s. Our book is entitled **“Trusted and Believable Leaders”**©. We promote **“Hope, Faith and Encouragement for Young People”** as well those in need of **“Healing for Diverse Public and Private Organizations and Communities!”**

Our material represents years of work and introduces **“The Seven (7) Powerful Habits & Strategies for Building and Rebuilding Trusted Relationships”** ©.

We have also supported clients through “Troubling Public Service Processes” including Welfare Reform, Public Safety, Medical Services and Educational Institutions.

See “Trust-Builders.Com” for **“Trusted and Believable Leaders”**© models including the “Seven Measures of Trusted (+) Relationships & Believability” ©. As in the past we continue to offer opportunities for healing to our fellow citizens in the USA and the greater Newark NJ area. For us it started during the unrest of the 1960’s in NJ.
